- 2c. NYCTCC Projects/ Proposals/Studies List

- 3a. MHSTCC Summary of TIP Projects
- 3b. N/STCC Summary of TIP Projects
- 3c. NYCTCC Summary of TIP Projects

I. OVERVIEW

The New York Metropolitan Transportation Council (NYMTC) is a regional council of governments, which serves as the Metropolitan Planning Organization (MPO) for New York City, Long Island and the lower Hudson Valley as designated by the Governor of the State of New York and certified by the Federal government. NYMTC provides its region with a collaborative planning forum to address transportation-related issues from a regional perspective, plan for and make decisions on the use of Federal transportation funds. The Federal government requires an MPO in each urbanized region of the country in order to maintain a continuing, cooperative and comprehensive transportation planning process, considering all modes in a coordinated manner through the following three mandated planning products:

- A long-range Regional Transportation Plan (minimum 20 year – the “Plan”)
- A medium-range Transportation Improvement Program (4 to 5 year program – the “TIP”)
- An annual Unified Planning Work Program (one year – the “UPWP”)

NYMTC’s voting membership includes Nassau and Suffolk counties on Long Island, and Putnam, Rockland and Westchester counties in the Hudson Valley with New York City represented through its departments of Transportation and City Planning. In addition, the New York State Department of Transportation and the Metropolitan Transportation Authority are voting members.

Advisory members include the Port Authority of New York and New Jersey, New Jersey Transit, the North Jersey Transportation Planning Authority, the New York State Department of Environmental Conservation, the Federal Highway Administration, the Federal Transit Administration and the United States Environmental Protection Agency.

As required by Federal regulation 450.324(h), an assessment of financial needs and resources is needed to establish the financial plan of the regional planning process for both the New York Metropolitan Transportation Council’s (NYMTC) Transportation Improvement Program (TIP) and Regional Transportation Plan (RTP). NYMTC has decided after consultation with FHWA, FTA and NYSDOT to provide one stand alone Integrated Financial Assessment (IFA) document to be amended and updated as the TIP and Plan are amended and updated. This document provides the financial information to meet the Federal planning requirements for the NYMTC 2008-2012 TIP update and the current 2005-2030 RTP. It is intended to be an interim document until full RTP update is complete. It also provides a description of the methodologies used in development of the cost and revenue estimates for 2005-2030 Plan. A full financial plan update is currently underway as part of the 2009 RTP update process.

II. LONG-RANGE NEEDS

A number of methods were used in estimating the region's long-term financial needs. The major portion of the roadway infrastructure (roads and bridges) is under the jurisdiction of New York State DOT, and estimates were derived by running their Pavement Needs Assessment Model (PNAM) and Bridge Needs Assessment Model (BNAM) for 24 years (2005-2029) and extrapolating the result to 2030. For "local" portions of the roadway system (including New York City) the estimates were derived from relevant county/city/local municipal capital plans and programs.

The transit infrastructure needs of the region are greatly influenced by the largest operator – the Metropolitan Transportation Authority (MTA). The financial assessment of MTA's infrastructure needs was based on their 20-year Capital Needs Assessment with adjustments made to accommodate the 2030 horizon year. For other transit operators in the region such as the Westchester Bee-Line System, Transport of Rockland and Suffolk Transit, financial needs estimates for infrastructure were based on their capital plans. For all of NYMTC's members involved in transit operations, State of Good Repair and Normal Replacement needs included vehicle fleets and infrastructure components such as tracks, maintenance facilities, stops, stations etc.

A. Capital (State of Good Repair/Normal Replacement-SOGR/NR)

Due to the difference in the RTP update cycle and the TIP update, all needs are from the 2005 plan update. The projected State of Good Repair/Normal Replacement needs for the region were defined as follows:

New York City - The long-range needs for New York City are estimated at approximately \$96.050 billion over the 2005-2030. This total includes approximately \$43.400 billion for roadways and bridges with \$52.650 billion for transit.

Long Island - The total forecasted cost for maintaining Long Island's transportation infrastructure is approximately \$13.778 billion over the 2005-2030 period. This total need is comprised of: \$4.610 billion for roadways and bridges and \$9.168 billion for transit.

Lower Hudson Valley - The total long-range cost of needs for the lower Hudson Valley is \$16.784 billion. This subregion includes Westchester, Rockland and Putnam counties. The total includes approximately \$7.700 billion for roadways and bridges and \$9.084 billion for transit.

Total NYMTC SOGR/NR needs are forecasted at \$126.612 billion for the entire 2005-2030 period and are contained in the calculation of fiscally constrained plan. A listing of projects is attached as Appendix 2a-2c. In addition, needs versus resources as per the 2005-2030 RTP as updated and amended through August 2007 are Appendix 1a and 1b.

B. Operating and Maintenance

Due to the difference in the RTP update cycle and TIP update all needs are from the 2005-2030 plan update. All operative and maintenance needs will and have been fulfilled to date. The projected estimates of needs for the region have been defined as follows:

State System – The total long range cost for the needs of the state system NYMTC wide is \$8.361 billion. This includes work by State forces, Contracted Maintenance work, Intelligent Transportation Systems, Travel Demand Management and Traffic and Safety projects. This need is not anticipated to be entirely federally funded. When federal funding is used the work and amount of funding will be reflected in the TIP.

Transit System – The total long range cost for the transit system NYMTC wide is \$159.139 billion. This includes \$143.287 billion for the MTA system and \$15.292 billion for the Non-MTA system. This need is not anticipated to be entirely federally funded. When federal funding is used the work and amount of funding will be reflected in the TIP.

Local System – The total long range cost for the local system NYMTC wide is \$13.040 billion. This includes \$0.756 billion State Consolidated Highway Improvement Program (O&M portion) and \$12.284 billion in Local Municipal O&M expenditures. This need is not federally funded.

Other – The other authorities, transportation providers or organizations such as Transcom were estimated to have \$0.113 billion system operative/maintenance needs.

Total NYMTC Operative and Maintenance needs are estimated to be \$180.753 billion. This amount is included in the fiscally constrained long range plan for 2005-2030 period of the RTP. In addition, when federal funding is anticipated the project and cost will be reflected in the TIP.

III. LONG-RANGE RESOURCES PROJECTIONS

A. Capital Resources

Due to the difference in the RTP update cycle and TIP update all resources are from the 2005-2030 plan update. All capital projections are based on 2004 current dollars. This IFA plan includes the following assumptions on likely revenue sources for the 2005-2030 RTP.

Federal Funding

As evidenced by ISTEA, TEA-21 and SAFETEALU federal funding will continue to play a major role in the renewal and expansion of the highway and transit infrastructure. SAFETEALU included funding for infrastructure renewal and network expansion. It was assumed during 2005 RTP update that the federal transportation acts that will follow TEA-21 would supply annual amounts of funds equal to those contained in the last program year of TEA-21. SAFETEALU has provided a roughly 10% increase to the NYMTC area.

State and Local Funding

Because the region's economic vitality and quality of life are dependent on the transportation network, New York City, the surrounding municipalities, counties and New York State will continue to have a major stake in the health of the network. It was assumed State resources would support the transportation system projects in the NYMTC region through 2030 with state and local resources remaining at approximately the same level as in the 2003/2004 period. This has remained true in 2008-2012 TIP update with State and Local Funding representing over 60% of the five year program.

Metropolitan Transportation Authority (MTA) Resources

Funding will continue to be available from revenue bonds, pay-as-you-go funding and interest earnings. The MTA has been able to refinance bonds, cut expenses and improve fare box revenue through increased ridership and will continue to work at innovative financing to maintain its level of bonding. The MTA's value to investors and customers rests on the organization's dedication to providing safe and reliable transportation essential to the continued economic growth of the region. The MTA will also continue to generate funds from interest earnings and explore untapped resources and new finance strategies.

Other Capital Resources

This Plan assumes that non-STOA supported capital funding for other transportation providers not accounted for in this plan (i.e., intercity bus, interstate bus, etc.) will continue. Amtrak is financed by the federal government and system revenues. It is also assumed that capital funding for other authorities not accounted for in this Plan

(PANYNJ, NYS Thruway Authority, others) will continue, that these authorities are self-funded and that their capital investments are governed by their respective capital programs. These authorities have at their disposal internal funds which support future capital investments to their respective facilities.

Also, a number of resources other than federal, state and local have been used to fund transportation projects in the past and can be expected to do so in the future. An example is the use of bridge and tunnel toll revenue to support the sale of bonds for financing transportation projects.

B. Operating and Maintenance Resources (O&M)

Due to the difference in the RTP update cycle and TIP update all resources are from the 2005-2030 plan update. All O&M base year estimates are 2005 dollars without inflation. These estimates are for planning purposes only and based on past expenditures. This IFA does not address the source of resources for O&M.

Many billions of dollars are spent by federal, state and local jurisdictions to maintain and operate the region's transportation system at existing levels. The Plan assumes that the region will continue to secure the funding required to meet these needs. Actual decisions regarding funding levels for Operation & Maintenance costs are made each year in the operating budgets for each of the hundreds of transportation providers in this region. Therefore, for the purposes of this Plan, the assumption is that each jurisdiction will continue to provide the resources needed to maintain and operate their portion of the system. Estimates of resources to be secured and needs for operative and maintenance cost as projected by the 2005-2030 NYMTC RTP are shown in Table 3.

IV. TIP (FFY 2008-2012)

The bi-annual NYMTC TIP update to establish the mid- to short range program was undertaken by the three TCC's during the spring of 2007 for the 2008-2012 federal fiscal years. The update period occurring within the 2005-2030 RTP horizon is consistent with the overall goals and objectives of the 2005-2030 RTP. Although the TIP and Plan operate on different cycles and due to the recent change in regulations full electronic data systems are not established, comparison between the RTP and the TIP can be made. From a theoretical financial perspective, the funding projected as part of that plan has been received and programmed in the TIP. As previously noted and shown in table 1 the 2005-2030 RTP percentage of Federal vs. State funding Resources is virtually equal to the 2008-2012 TIP program breakout. Also the estimated resources in the 2005-2030 RTP, were projected to be \$163.690 billion, approximately one- fifth of this amount (length of TIP) would be \$ 32.738 billion, the 2008 TIP is \$34.633* billion. Part of the difference in this number is undoubtedly due to the change in federal legislation since the 2005-2030 RTP estimates. It should be noted the comparison of these two dynamic documents are being discussed in a snapshot of programmatic time. Table 2 shows the needs are being met proportionally as projected in the RTP by each TCC. Therefore the TIP does represent a sub set of the RTP and in addition enables the vision therein. Summary of 2008-2012 TIP projects is attached as Appendices 3a through 3c.

Table 1 Estimate of 2005-2030 RTP Capital Resources vs. FFY 2008-2012 TIP

	Projected. Resources 2005- 2030 (\$ Billion)	% of 2005-2030 Resources	1/5 of 2005-2030 Projected Resources (\$Bil.)	FFY 2008 - 2012 TIP (\$ Billion)	% of TIP vs RTP Projection
FHWA	\$20.438	12.0%	\$4.482	\$4.498	109.69%
FTA	\$26.256	15.5%	\$6.238	\$6.238	118.80%
STATE	\$15.818	9.3%	\$3.746	\$3.774	118.39%
LOCAL	\$3.204	1.9%	\$0.785	\$0.625*	122.46%
LOCAL MTA	\$89.075	52.5%	\$19.382	\$19.385	108.80%
SUBTOTAL	\$154.791	91.2%	\$30.957	\$34.633	111.51%
ESA (Fed)	\$2.7	1.6%		(a)	
SAS (Fed)	\$4.0	2.4%		(a)	
#7 Extension	\$2.2	1.3%		(b)	
ARC	\$6.0	3.5%		(b)	
TOTAL	\$169.69	100.0%			

*Note: \$0.318B of NYS Thruway Local funding is not represented in these numbers.

(a) East Side Access (ESA) and Second Avenue Subway (SAS) are programmed within the 08-12 TIP for appropriate project phases as anticipated to occur during this TIP 5 year element at the time of program development for the TIP process and can be amended as necessary

(b) Project not reflected in 2008-2012 TIP 5 year element.

Table 2
 2005-2030 Needs by TCC vs 2008-2012 TIP
 (\$ Billion)

	Needs 2005-2030 RTP (\$ Billion)	2008-2012 TIP (a) (\$ Billion)
NYCTCC		
Highway	\$43.868	\$4.614
Transit	\$65.950	\$17.142
MHSTCC		
Highway	\$7.784	\$1.337
Transit	\$9.084	\$1.284
NSTCC		
Highway	\$4.648	\$2.348
Transit	\$15.468	\$7.907
TOTAL	\$149.012	\$34.633

(a) includes East Side Access (ESA) and Second Avenue Subway (SAS) as programmed/anticipated in the 2008-2012 TIP five year element to be amended as necessary

Table 3 Estimates of Resources to be secured and Needs for Operative and Maintenance Cost for the NYMTC Transportation FFY2005-2030 (as updated for the 2008 – 2012 TIP)

System	Estimated Needs & Resource to be secured
State System	
State Forces	\$1,756.00
Where and When Contracts	\$322.00
Other Contract Maintenance Work	\$1,464.00
Traffic and Safety	\$1,560.00
Travel Demand Management	\$388.00
Intelligent Transportation Systems	\$2,871.00
Subtotal	\$8,361.00

Regional Transportation Plan 2005-2030
Long Island Projects/Proposals/Studies

Project	Sponsoring Agency	County	Study	Timeframe		Constrained	Guiding Principle	Proposed Cost
				0-10	10+			
Roadway								
1	SR 25-Jerico Turnpike/Main St/Middle Cty Rd - add 1 thru lane each direction & 2-way LTL from Wheeler Rd to Nesconset H'way (PIN #004196)	NYSDOT	S		x	x	2,3	\$23m
2	SR 25-Middle Country Rd - add 1 thru lane each direction from CR83 to CR21 (PIN # 004197)	NYSDOT	S		x	x	2,3	\$38 m
3	SR 111-Hauppauge Rd - add 1 thru lane each direction from CR 76 to SR 347	NYSDOT	S		x	x	2,3	\$ 5 m
4	SR 112 Port Jefferson & Patchogue Rd - add 1 thru lane in each direction from LIE to Old Town Road (PIN # 001620)	NYSDOT	S		x	x	2,3	\$ 54 m
5	SR 112 Port Jefferson & Patchogue Rd - add 2-way LTL from Old Town Rd to Route 347 (PIN # 001621)	NYSDOT	S		x	x	2,3	\$30 m
6	SR 347 Nesconset-Port Jefferson H'way - add 1 thru lane each direction with 2 grade separations from Brooksite to Old Town Rd (005408, 005409& 005410)	NYSDOT	S		x	x	2,3	\$215 m
7	CR 3 Wellwood Ave/Pinelawn Rd - add 2-way LTL from Ruland Rd to LIE & intersect. imprvmt. at Ruland Rd 9 (#075656)	COUNTY	S		x	x	2,3	\$ 8 m
8	CR 16 Terry Rd/Smithtown Blvd/Portion Rd/Horseblock Rd - add 1 thru lane each direction & 2-way LTL from Ronkonkoma Ave to CR 97 Nicolls Rd (PIN#075598)	COUNTY	S		x	x	2,3	\$24 m
9	CR 80 Montauk H'way - add 1 thru lane each direction & 2-way LTL from CR 46 to Garden PI (PIN #075668)	COUNTY	S		x	x	2,3	\$ 17 m
10	CR 97 to 25 Turn Lines (PIN #075660)	COUNTY	S		x	x	2,3	\$ 3m
11	CR 58 Old Country Road - add 1 thru lane each direction and 2-way LTL Cross River Drive(CR 105) to LIE (PIN # 075885)	COUNTY	S		x	x	2,3	\$ 25 m
12	CR 39 - add 1 thru lane each direction & 2-way LTL from CR38 to SR 27/27A, add 1 e/b thru lane and 2-way LTL from SR 27 to CR 38 (PIN #075636)	COUNTY	S		x	x	2,3	\$ 63 m
13	Construct Pilgrim Intermodal Freight Terminal (PIN #033912 / 033913)	NYSDOT	S			x	2,3,4	\$96m
14	SR 347 Nesconset-Port Jefferson H'way - add 1 thru lane each direction with 1 grade separations from Norther State P'way to Brooksite and Old Town to Route 25A (PIN #005411 ,005412)	NYSDOT	S		x	x	2,3	\$ 154 m
15	SR 25 Middle Country Rd - add 1 thru lane each direction from Coram-Mt. Sinai Rd to CR 21 (004197)	NYSDOT	S		x	x		
16	CR 16 Terry Rd/Smithtown Blvd/Portion Rd/Horseblock Rd - add 1 thru lane each direction & 2-way LTL from SR 112 to SR 27	COUNTY	S		x	x	2,3	\$ 30 m
17	CR 57 Bayshore Rd/Howells Rd/Third Ave - add 1 thru lane each direction & 2-way LTL from NYS 27 to CR231 (075669)	COUNTY	S		x	x	2,3	\$ 9 m
18	CR 13 Crooked Hill Rd - add 1 thru lane each direction & 2-wat LTL from CR 4 to Sagtikos Parkway Interchange	COUNTY					2,3	
19	SR 25 Middle Country Rd - add 1 thru lane each direction from CR 21 to Wading River-Manorville Rd	NYSDOT	S			x	2,3	
20	SR 27 Sunrise H'way Svce Rds - add 1 thru lane each direction & 2-lane service roads from Phyllis Dr to CR 46	NYSDOT	S			x	2,3	
21	CR 46 - add 1 thru lane each direction from SR 25 to SR 27	COUNTY	S			x	2,3	
22	CR 83 Patchogue-Mt. Sinai Rd - add 1 thru lane each direction from Granny Rd to Route 112	COUNTY	S			x	2,3	
23	CR 100 Suffolk Ave - extension from CR 4 to Sagtikos State Parkway	COUNTY	S			x	2,3	
24	SR 107 Massapequa-Hicksville Rd - add 1 thru lane each direction from Merrick Rd to Boundary Ave	NYSDOT	N			x	2,3	
25	SR 109 Babylon Farmingdale Rd/Little East Neck Rd - add 1 thru lane each direction & 2 way LTL fromm SSP to SR 27	NYSDOT	S			x	2,3	
26	SR 231 Deer Pk Ave - add 1 thru lane each direction & 2-way LTL from Nicolls Rd to SSP	NYSDOT	S			x	2,3	
27	SR 454 Veterans Memorial H'way - add 1 thru lane each direction from Rte 25 to SR 347	NYSDOT	S			x	2,3	
28	SR 454 Veterans Memorial H'way - add 1 thru lane each direction & 2-way LTL from LIE to SR 27	NYSDOT	S			x	2,3	
29	CR 83 Patchogue-Mt. Sinai Rd - add 1 thru lane each direction from Route 112 to Route 25A	COUNTY	S			x	2,3	
30	CR 97 - add 1 thru lane each direction from SR 347 to SR 25A	COUNTY	S			x	2,3	
31	Bethpage State Parkway - extension from Central Ave to SOBE at Broadway	NYSDOT	N			x	2,3	
32	Wantagh State Park - extension from NSP to LIE	NYSDOT	N			x	2,3	
33	SR 25A Fort Salonga Rd - add 1 thru lane each direction from Sunken Meadow Rd to Indian Head Rd	NYSDOT	S			x	2,3	
34	SR 112 Port Jefferson & Patchogue Rd - add 1 thru lane each direction from SR 27 to LIE	NYSDOT	S			x	2,3	
35	SR 135 Seaford-Oyster Bay Arterial - extension as signalized arterial from Rte 25 to Syosset-Cold Spring Harbor Rd.	NYSDOT	N			x	2,3	
36	Old Willets Path - add 1 thru lane each direction from SR 347 to CR 67	COUNTY	S			x	2,3	
Transit								
1	Mainline Corridor Improvement Project (L503/04/T7 , L503/04/T8)	MTA LIRR	N & S		x	x	1,2,4,5,	\$214m
2	Local Bus Improvements	COUNTIES	N & S		x		1,2,3	
3	Bike/Ped Access to Transit Facilities	NYSDOT	N & S		x		1,2,3	
4	Hourly Bus Service to north and south forks from Ronkonkoma	SUFFOLK COUNTY	S		x		1,2	
5	Port Jefferson Yard	MTA LIRR	S		x		1,2,5	
6	Main Line Branch Yard	MTA LIRR	S		x		1,2,5
