

# **LOWER HUDSON VALLEY**

## **PROGRAM HIGHLIGHTS**

## **PROJECT LISTINGS**

- PUTNAM COUNTY
- ROCKLAND COUNTY
- WESTCHESTER COUNTY
- MID-HUDSON SOUTH MULTI-COUNTY
- MTA - METRO NORTH RAILROAD
- NEW YORK STATE THRUWAY AUTHORITY
- NEW YORK STATE BRIDGE AUTHORITY

## **Mid-Hudson South TCC Program Highlights**

The following is a select listing of bridge, highway, transit, ferry, mobility, bikeway, and walkway improvement projects of significance, which will affect the region's future transportation system. The program emphasis for the state and local highway systems is maintaining and operating the existing system and bringing that system to a state of good repair. The program emphasis for the transit operators is also to maintain their systems and to keep them in a state of good repair. A third emphasis is decreasing the number of single occupant automobile trips by increasing transit services, improving vanpooling and carpooling programs, and providing services that encourage/promote changing to transit and ridesharing. Increasing opportunities for pedestrians and cyclists by providing sidewalks, expanding the regional network of trailways, and including bicycle and pedestrian facilities in highway and transit projects is another emphasis area.

### **BRIDGE IMPROVEMENTS**

Bridge improvements are projects programmed for the maintenance, repair, rehabilitation and replacement of bridges that are listed on the MHSTCC. Highlights of those bridge projects include:

#### **New York State Bridge Authority**

Over the next five years, the New York State Bridge Authority has various improvements proposed to the five bridges under their jurisdiction.

Improvements scheduled for the Bear Mountain Bridge as stand alone projects or as part of a system-wide project include pavement work, bridge inspection, maintenance projects, equipment purchases, security projects and seismic retrofit.

#### **New York State Department of Transportation**

Noteworthy bridges on the state highway system scheduled for rehabilitation or replacement include I-84/Dingle Ridge Road, Turk Hill Road/I-684, Route 59/Sickletown Road, Route 59/Western Highway, Route 59/Hackensack River, Route 9/Central Avenue, Route 9/Hudson Avenue, Route 9/Requa Street, Route 6/Route 9, Saw Mill River Parkway/Kisco Avenue, Route 120/Metro-North, and various bridges along I-287 and I-684. In addition, all state owned bridges will be washed biennially, painted as needed, and have preventive maintenance work performed.

## **Putnam County**

Sodom Road/East Branch Croton River is scheduled to be rehabilitated.

## **Rockland County**

Bridges slated for replacement or reconstruction include: Sickletown Road Bridge over the Nauraushaun Brook, Oak Tree Road over the Sparkill Creek in the Town of Orangetown, and the Gurnee Avenue tunnel replacement project in the Village of Haverstraw.

## **Westchester County**

The Westchester County Department of Public Works along with two municipalities has 6 bridge projects, totaling \$42.5 million. The County's projects include a bridge replacement project: Odell Avenue Bridge over the Abandoned Putnam Division Railroad (South County Trailway) in Yonkers; and, a major bridge replacement/rehabilitation project, the Bronx River Parkway over the Bronx River and MTA Metro-North Harlem Division at Crane Road in Scarsdale and Greenburgh. Greenwood Street over Hallocks Mill Brook is scheduled to be replaced by the Town of Yorktown and the Popham Road Bridge over the Metro-North Railroad will be replaced by the Village of Scarsdale.

## **Metro-North Railroad (MNR)**

The MNR bridge program will continue the repair and replacement of bridges over the railroad or supporting the railroad's right-of-way. Federal Highway Administration funds will be used to replace South First Avenue/MNR in Mt. Vernon, Bridge Street/MNR in Irvington, and North Barry Avenue/MNR in Mamaroneck.

## **HIGHWAY IMPROVEMENTS**

Funding is programmed for the reconstruction and rehabilitation of New York State and locally owned highways to maintain and improve the existing transportation infrastructure.

## **New York State Department of Transportation (NYSDOT)**

NYSDOT projects include preventive maintenance, resurfacing of highways, replacing culverts, repairing/replacing guiderail, replacing signs, installing traffic signals, and installing pavement markings. Below are a few projects of significance:

## **Route 22**

Funding is programmed to continue development of a project for the reconstruction and rehabilitation of Route 22 from Interstate 84 to Putnam Lake Road (CR 65) in Putnam County. Construction is anticipated in 2010.

## **Cross Westchester Expressway, I-287/I-87 Interchange and I-287 Corridor**

As a major commercial and commuter corridor, the Cross Westchester Expressway links the Tappan Zee Bridge with the New England Thruway and provides direct access to Rockland County, lower Westchester County and Southern Connecticut. Because of its magnitude the I-287 rehabilitation was divided into stages. Stage 1, which reconstructed from the Tappan Zee Bridge to the Saw Mill River Parkway, is complete as is Stage 2A at Exit 5. Stage 2 from the Saw Mill River Parkway to Exit 5 is also complete. Stage 3 from the Bronx River Parkway to Bloomingdale Road is under construction. Exit 8E will be reconstructed starting in 2010. Rehabilitation of the I-287 pavement from Route 120 to I-95 is scheduled for early 2007 construction. Paving from Bloomingdale Road to Route 120 is scheduled for 2009. Reconstruction projects will include rehabilitation with operational and safety improvements and the addition of Intelligent Transportation Systems.

## **Taconic State Parkway**

The final stage project to reconstruct and widen the parkway from four to six lanes from Route 35/202 to Route 6 and replace bridges began in May 2003 and will be completed during the summer of 2007. A project to landscape the entire section from Route 35/202 to Route 6 began in 2006. A new entrance ramp from southbound Route 9A to the southbound Taconic State Parkway, known as Ramp X, is under construction.

The Taconic State Parkway (TSP) at grade intersection at Pudding Street will be grade separated probably with ramp connections. The TSP between Stillwater and Route 301 will be reconstructed to add shoulders and improve safety.

## **Hutchinson River Parkway**

The ramp from the northbound Hutchinson River Parkway (HRP) to westbound Cross County Parkway (exit 13) will be relocated to the vicinity of the Hutchinson River Parkway / Cross County Parkway interchange (exit 15). This should improve the geometry and operation of the interchange for westbound CCP traffic.

### **Saw Mill River Parkway**

The Saw Mill River Parkway will be reconstructed from Route 120 to Route 117.

### **Palisades Interstate Parkway**

The Palisades Interstate Parkway will be reconstructed from North Middletown Road to Route 202 to create a section similar to the section from the New Jersey State line to North Middletown Road. The Parkway will be resurfaced north of Route 202.

### **I-684**

The rehabilitation of the I-684 mainline from I-287 to just south of Exit 2 began in 2004 and is complete. The section from Route 120 to the Tamarack Swamp is scheduled for 2007, from Harris Road to Route 35 is scheduled for 2009 and from Hardscrabble Road to I-84 for 2010. This completes repaving work on I-684.

### **I-84**

I-84 is being repaved in stages from the Pennsylvania state line to the Connecticut state line. In the Mid-Hudson South region, projects in Putnam County include the section from the Taconic State Parkway to Ludingtonville Road which is complete. Ludingtonville Road to I-684 and I-684 to the Connecticut state line are scheduled to be completed this summer.

### **CSX West Shore River Line**

The New York State Department of Transportation will be improving the at grade railroad crossing at Short Clove Road in the vicinity of Haverstraw. This \$20+ million project will involve reconstructing and relocating Short Clove Road to allow it to cross over the River Line and meet Route 9W at a new intersection north of the existing intersection. This will greatly increase safety for the large trucks that use this crossing and improve access to the Village of Haverstraw and the Haverstraw-Ossining Ferry.

The improvement of Gurnee Avenue under the River Line to two lanes by Rockland County will also improve access to the Village.

### **Putnam County**

Putnam County has scheduled reconstruction/rehabilitation projects for Fair Street from Route 52 to John Simpson Road and Stoneleigh Avenue at Drewville Road.

## **Rockland County**

The Rockland County Highway Department has programmed an estimated \$9.5 million in new highway projects. Slated for reconstruction is Pascack Road from Smith Road to Pipetown Hill Road and tunnel replacement in Clarkstown. Intersection improvement projects include Suffern Lane at Hammond Road in Haverstraw, and Pascack Road at Lawrence Street in Ramapo. Rockland will also begin design and engineering for the Railroad Crossing Safety and Quiet Zone project to install Supplemental Safety Measures (SSMs) at 23 highway-rail grade crossings on the West Shore Line. This will improve safety of the crossings and enable the County to establish a “Quiet Zone”, which will reduce the sounding of train horns and improve the quality of life in communities along the River Line.

## **Westchester County**

Westchester County Department of Public Works and many of the local municipalities have 29 projects consisting of resurfacing, traffic signal improvement/coordination as well as intersection improvements totaling \$36 million.

## **NYS Thruway Authority**

Work on projects totaling approximately \$309 million is proposed for the 2008-2012 years for various improvements along both the New England Thruway (I-95) and NYS Thruway (I-87) in Westchester and Rockland Counties. The improvements include pavement rehabilitation, bridge replacement / rehabilitation, noise barriers, intelligent transportation systems, and operational improvements to two of the Toll Barriers. The 15-mile New England Thruway connects the Bruckner Expressway (I-95) in the Bronx, to I-95 in Connecticut. The NYS Thruway mainline begins at the northern end of the Major Deegan Expressway (I-87) at the NYC/Westchester County line, and continues north and across the Tappan Zee Bridge along the I-87/I-287 Corridor, a major link between New York City, Westchester County, and the rest of the state.

Projects for the 2008-2012 years include pavement reconstruction/rehabilitation on 22 of the 52 miles of highway, replacement/reconstruction/rehabilitation work on 22 bridges, reconstruction and operational improvements on I-95, from the I-287 Interchange to the Connecticut state line (Last Mile), operational improvements with Highway Speed EZPass at the New Rochelle (I-95) and Yonkers (I-87) Toll Barriers, major rehabilitation work to the Tappan Zee Bridge and three new noise barrier locations.

## **TRANSIT IMPROVEMENTS**

### **Metro-North Railroad**

Over the five years, Metro-North Railroad will continue its investment in rolling stock, station improvements and other infrastructure. Some of the significant transit projects include:

#### Passenger Stations:

- Hudson Line Station Rehabilitation – from Hastings to Ossining - Stations will undergo major rehabilitation to maintain the stations in a State of Good Repair.
- New Haven Line Stations Rehabilitation – from Mt. Vernon East to Port Chester - Priority repairs such as replacement of the east overpass at Rye, platform rehabilitation, structural repairs, overpass repairs, electrical upgrades, lighting improvements and other necessary station rehabilitation and improvements will be completed.
- Station Buildings Rehabilitation - Rehabilitation of select stations in the service territory such as Tarrytown and Port Chester.
- Strategic Intermodal Facilities and Parking Expansion projects include monies to implement strategic station and parking investments to construct key intermodal transportation hubs in the Metro-North region. The work includes major station improvements such as new/expanded station facilities, new intermodal facilities to provide for connections with taxis and bus transfers, major interchange access improvements from Interstate highways/major roadways, expanded parking, and right of way improvements such as track, interlockings and signal work. Projects being studied now in the MHS region include North White Plains and Cortlandt.
- Harmon Shop Replacement - The continuation of the replacement of the 100 year old repair facility will continue in this program with replacement of the locomotive and coach shops.

### **Rockland County**

Rockland County will continue on-going replacement and fleet expansion of the County's paratransit vehicles and commuter coaches, and will also purchase low floor hybrid buses. Rockland will continue with the implementation of Intelligent Transportation Systems (ITS) technology for the Rockland County TOR, and TZX transit systems, including the development of electronic fare collection, "Next Bus" technology, a vehicle locator system and other ITS components. Also included is Rockland's ongoing bus shelter improvement program. Rockland County will begin a project to retrofit all diesel fueled vehicles with diesel particulate traps or best available retrofit technology to reduce particulate matter (PM) from diesel fueled transit buses and heavy duty highway vehicles.

## **Westchester County**

The Westchester County Department of Transportation has 16 projects programmed over the next 5 years totaling approximately \$96 million. The primary focus of the program is the maintenance of bus service, including both capital rolling stock and operating services which have grown-up through the CMAQ program.

Among the major capital projects is the continued replacement of vehicles as they become eligible under federal rules. This includes paratransit vans, supervisory vehicles, and standard forty-foot transit buses. It should be noted that the specifications for the next bus procurement, the replacement of 84 1995-96 Orion buses, will require hybrid engine technology.

In addition to vehicle replacements, Westchester will undertake enhancements to bus stops, improvements at both bus garages, and the implementation of its SMART Commute program..

Several operating services, including the Bee-Line Shuttle System, will continue to receive funding during the five-year program.

## **Inter-County Services - NYSDOT**

The operation and improvement of inter-county bus services continues. Services such as the Poughkeepsie-White Plains bus, the Orange Westchester Link, the Tappan Zee Express, the Stamford-White Plains Bus (I-Bus), the Croton Falls Shuttle, the Ridgefield- Katonah Shuttle, the Brewster-Danbury Shuttle, and West Shore Express Bus provide needed regional transit service and critical connections to the commuter rail system. These services are supported by features such as Uni-Ticket and guaranteed ride home programs.

The Village of Haverstraw is using Ferry Boat Discretionary funding obtained by the Hudson Valley Congressional delegation to make landside improvements in Haverstraw including a new ferry pier and parking garage. The operation of the ferry is funded by the New York State Department of Transportation in cooperation with MTA/Metro-North Railroad.

Ferry service between Yonkers and lower Manhattan started in May 2007 funded by the Port Authority and the Lower Manhattan Development Corporation. Work at the Yonkers ferry pier was funded with Ferry Boat Discretionary funding. Extension of this ferry service to Haverstraw is anticipated to begin later in 2007. Its operation would be funded by Ferry Boat Discretionary funding.

A new shuttle service between New Fairfield in Connecticut and the Southeast Railroad Station in Putnam County is planned to begin in 2007.

## **MOBILITY IMPROVEMENTS**

Efforts to improve mobility include the implementation of Transportation Demand Management (TDM) strategies, employee commute option programs, and installation of Intelligent Transportation Systems (ITS). Mobility strategies such as bike lanes and pedestrian walkways are handled in a separate section. Significant mobility strategies included in the TIP are:

### **Intelligent Transportation Systems (ITS)**

The Hudson Valley Transportation Management Center (TMC) opened in August 2004 in Hawthorne adjacent to the Sprain Brook Parkway. Deployment of ITS will continue with the construction of projects to add ITS equipment to various highway corridors over the TIP period such as I-287, I-684, the Cross County Parkway, Hutchinson River Parkway, Sprain Brook Parkway, and Saw Mill River Parkway. The I-287 rehabilitation projects have or are installing ITS equipment. The HELP program will continue as well as coordination of the dispatch of emergency services by the TMC with the State Police.

### **Transportation Demand Management (TDM)**

The TDM program in Mid-Hudson South region is extensive. It incorporates the inter-county bus services and Haverstraw-Ossining Ferry described above along with carpooling, vanpooling, employer-based programs, guaranteed ride home programs, Uni-Ticket, transfers between bus systems, park & ride lots, Ozone Action Days, web based transit trip planning, and general promotion of transit and ridesharing. Also involved is coordination among the transit operators involving routes, transfers, schedules, marketing, and ticketing to provide as seamless a service to riders as possible. The conversion of the Westchester Bee Line fare system to MetroCard in 2007 was assisted through the TDM program.

The Westchester and Rockland County Commute Alternatives Programs will continue to encourage commuters to find travel alternatives to the single occupant vehicle (SOV). Ongoing programs including TransitChek, Guaranteed Ride Home, NURIDE, as well as marketing campaigns will be continued. All these programs encourage people to use transit or ride share.

## **BIKEWAY AND WALKWAY IMPROVEMENTS**

In many instances, bikeway and walkway improvements are not specifically noted in project descriptions, as they may be components of larger projects. Sidewalks are being advanced both as separate projects and as components of larger scale improvements.

Mid-Hudson South members are developing a system of trailways that eventually, will serve as a regional trailway system. The South County Trailway, North County Trailway, and Putnam Trailway will be substantially completed over this TIP period and together will create a trailway that extends from Yonkers to Brewster. The Maybrook Trailway will link Brewster to Dutchess County where the trailway will eventually continue to Poughkeepsie and link across the Hudson to Ulster County. West of the Hudson, the Palisades Interstate Trailway implementation began with the opening of a section of trailway from Oak Tree Road to Western Highway in Orangetown. The TIP contains funding to continue trailway construction towards the eventual northern terminus at the Bear Mountain Bridge, which connects Rockland and Orange Counties with Westchester and Putnam. Various local links to these trailways are also being implemented.

Specific projects include: Route 306 sidewalks, continued construction of the Putnam County Bikeway from Carmel to Brewster, continued construction of the Maybrook Bikeway from the Connecticut line to the Dutchess County line. Construction will also continue on the Palisades Interstate Trailway Stage 2 from Route 303 to Western Highway and Stage 3 from Western Highway to the Thruway.

Bicycle and pedestrian improvements are also planned in Rockland for County Route 33 from Little Tor Road to North Middletown Road. Construction of the Ramapo River Trailway, a two mile paved trail from the New Jersey State Line to Route 59 in Hillburn, development of a pedestrian/bicycle trail on the abandoned Piermont Line from Monsey Glen Park to Robert Pitt Drive in the Town of Ramapo and improvements to Bike Route 9 Rockland Lake River Trail and the Dunderburg Mountain Trail.

In Westchester County, work will progress on the South County Trailway with a project which will construct the trail from the Redmond Park to Tuckahoe Road in the City of Yonkers. A missing portion of the South County Trailway north from Route 119 will be constructed as part of the improvement of Route 9A from Route 119 to Executive Boulevard.

## **SUSTAINABLE DEVELOPMENT**

The New York Metropolitan Transportation Council in cooperation with the New York State Department of Transportation, Rockland County, the Town of Orangeburg, Westchester County, the Town of Cortlandt, the Town of Yorktown, and the City of Peekskill completed the Route 303 Sustainable Development Study and the Route 6/35/202/Bear Mountain Parkway Sustainable Development Study. These two studies are now in their implementation phase with the study participants actively monitoring progress of the recommended land use and transportation improvements.

From the Route 303 study, projects on Route 303 at Erie Street and at Orangeburg Road/Route 340 are scheduled within the program period. From the Route 6/35/202/Bear Mountain Parkway study, the following projects are planned for the program period: intersection improvements on Route 35/202 at Lexington Avenue and at Pine Grove Court / Stoney Street, an access management project on Route 35/202 at Garden Lane, the rehabilitation of the Bear Mountain Parkway from Route 6/9 to Route 35/202, and the reconstruction of the Bear Mountain Parkway / Route 6 interchange. Design work on the Bear Mountain Parkway Extension from Route 35/202 to the Taconic State Parkway should begin. Scoping and preliminary design work for improvements to Route 6 in Mohegan Lake will continue.

The land use changes recommended by the two studies have been / are being adopted by the local governments. In Westchester, the Towns of Yorktown and Cortlandt and the City of Peekskill have created a jointly funded mechanism to share information on the traffic impacts of proposed developments.
