Hudson Tunnel Project &
The Gateway Program

June 9, 2016
Hudson Tunnel Project

Purpose

• Preserve the current functionality of the Northeast Corridor’s (NEC) Hudson River rail crossing and strengthen the resilience of the NEC while maintaining uninterrupted commuter and intercity rail service

Anticipated Project Elements

• A new rail tunnel under the Hudson River
• Rail infrastructure required to connect the new rail tunnel to the NEC in New Jersey and New York
• Rehabilitation of the existing NEC tunnel
Hudson Tunnel Project
Gateway Program Framework
November 2015 Announcement

• Creation of a development corporation
• Board with USDOT, Amtrak, NJ, and NY
• 50/50 federal-local split
• Maximize use of federal grants and loans
