

Improving First-Mile/Last-Mile Access to Suburban Commuter Rail Stations

Traditional Station Access: Parking

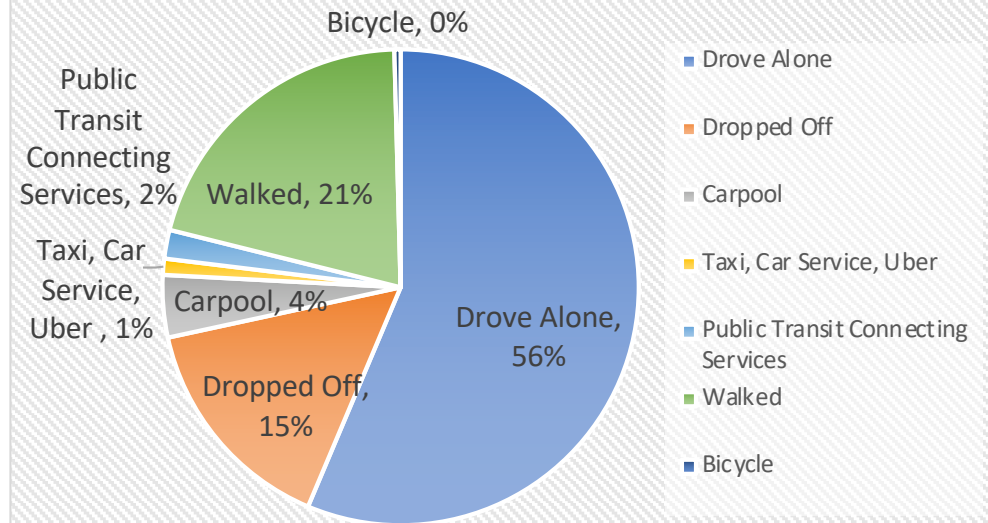

Goal: Shift Customers from Driving to other Modes

Total MNR Customers, AM Peak

2017 O-D Survey

Total LIRR Customers, AM Peak

2013 O-D Survey

“First-mile/Last-mile” Multimodal Station Access

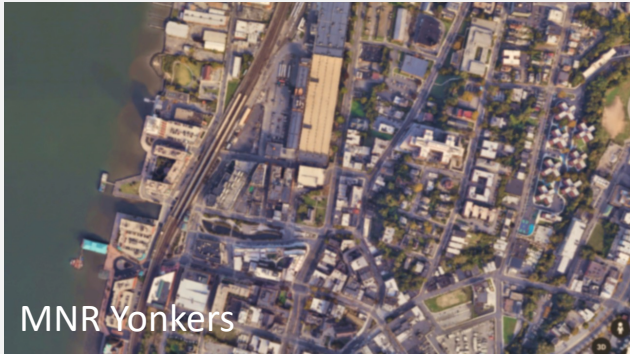

Best Practices Research

Station Typologies Analysis

Major hubs

Higher density

Medium density/suburban

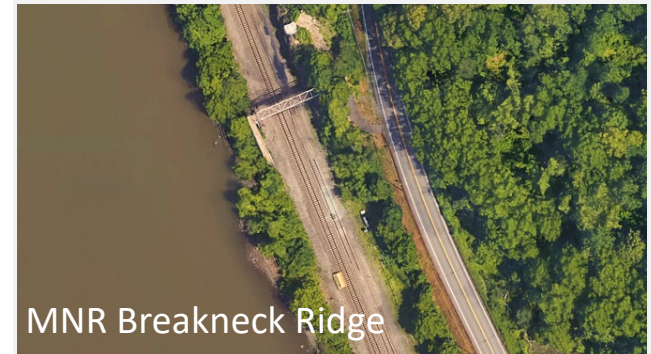

Medium density/village

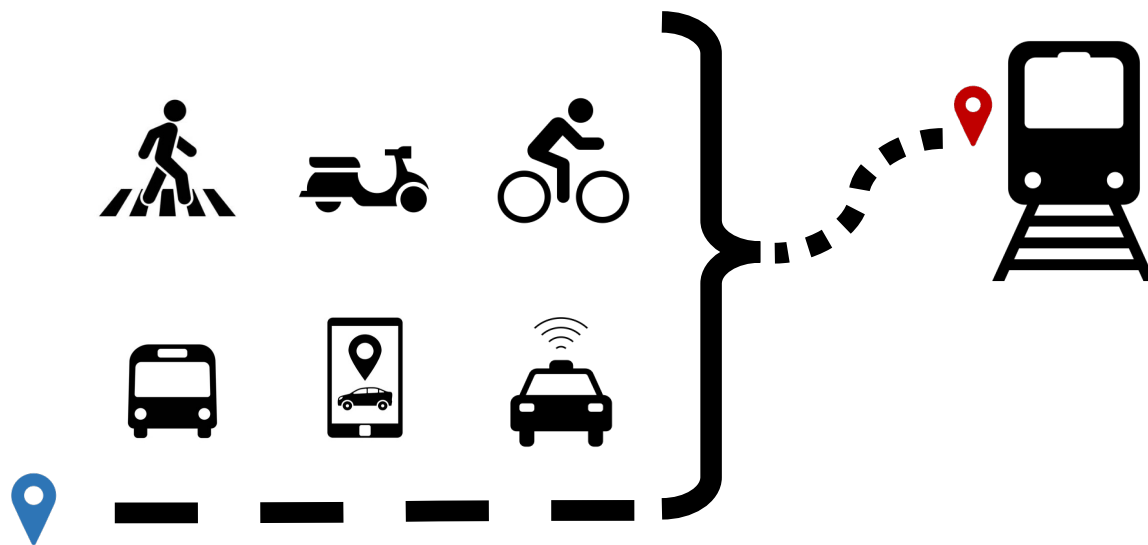

Lower density

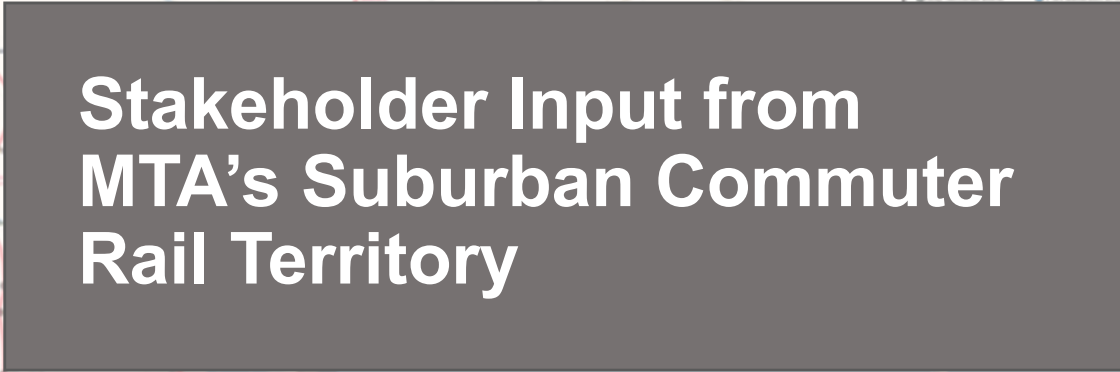

Seasonal/limited stop

Access Gaps Analysis

Missing crosswalks
Missing sidewalks
Topography
Lack of bike lanes or racks
Lack of bus shelters
Time waiting for shared
ride options
Intermodal amenities

MTA's New First-mile/Last-mile Policy

permits MTA Real Estate to enter into licenses with suburban stakeholders to implement first/last mile pilot programs on MTA property at suburban commuter rail stations.

Metropolitan Transportation Authority

The MTA First Mile Last Mile Toolkit

Welcome to MTA's First Mile Last Mile (FMLM) Toolkit. MTA developed this toolkit as a resource for regional communities and other interested parties (users) to encourage implementation of improved, equitable, and environmentally-friendly ways for travelers to access Long Island Rail Road (LIRR) and Metro-North Railroad commuter rail stations in the New York suburbs. This toolkit provides users with a step-by-step guide for identifying and developing potential FMLM strategies that users can implement or test as a pilot program.

Learn more about First Mile Last Mile access strategies by viewing the educational resources in the right hand column.

This Toolkit was developed using federal funding from New York Metropolitan Transportation Council (NYMTC).

The toolkit provides state of the practice research, analysis tools customized to your community, and guidance on how to select effective strategies, fund and implement them. Please press the "Create Account" button to create your username and password to access the toolkit.
