RECAP: NYMTC's REGIONAL TRENDS SERIES: BIG DATA, AUTONOMOUS MOBILITY AND THE LAW

NEW YORK – Matthew W. Daus, Esq., former Commissioner and Chair of the New York City Taxi and Limousine Commission (TLC), offered a special presentation at the New York Metropolitan Transportation Council (NYMTC) regarding the future of transportation technology, as it relates to big data, autonomous mobility and the law.

Mr. Daus – a transportation technology lawyer, Distinguished Lecturer at the City College of New York's University Transportation Research Center (UTRC) and President of the International Association

of Transportation Regulators – discussed the evolving laws and regulations impacting transportation data and privacy, including access to data (transportation network companies, taxis, paratransit, airports) by the public, government, academia and competing private company interests.

As part of NYMTC's Regional Trends Series, Mr. Daus addressed the legal and policy issues being researched internationally, and led an interactive discussion on the future of the for-hire ground transportation industry as autonomous and connected vehicle technology progresses daily.

Upcoming NYMTC Meeting Calendar

About the New York Metropolitan Transportation Council

The New York Metropolitan Transportation Council (NYMTC) is a regional council of governments that is the Metropolitan Planning Organization for New York City, Long Island and the lower Hudson Valley. NYMTC provides a collaborative planning forum to address transportation-related issues, develop regional plans and make decisions on the use of federal transportation funds for its planning area. NYMTC is comprised of nine voting members and seven advisory members who develop plans, goals and a shared vision for the region's transportation network, which includes a planning area that covers 2,440 square miles and includes a population of 12.4 million. For more information, please visit www.nymtc.org.
